Issued for presentation at the place of demand.

Dean,
Olena HABELKO

Associate Professor

Secretary

Olha BORSCHENKO

Приклад мотиваційного листа (особистий підпис в кінці листа)

Dear Members of the Selection Committee,

My name is Sofiia, and I am extremely excited about the opportunity to apply for the Winter Courses of Lithuanian Language and Culture at the Institute of Lithuanian Literature and Folklore, which will last for 30 days. I view this short but highly intensive learning period not only as a chance to gain new knowledge but also as a unique opportunity to immerse myself in the world of the international academic community, where the spirit of discovery and innovation thrives.

My academic journey thus far has been filled with a thirst for knowledge and a deep interest in foreign languages. I have always believed that true intellectual progress is possible only when we can view the world through the lens of other cultures, and participation in this program offers a wonderful opportunity to broaden my horizons and enrich my knowledge with new, more global perspectives.

The month-long program is an intense path that will require my full dedication and concentration. And although the time is limited, I am confident that this period will become an unforgettable and key part of my academic journey. I am eager not only to gain knowledge but also to actively engage in discussions, exchange ideas, and collaborate with other students and faculty. I believe that this learning experience will serve as a catalyst for new insights and ideas that I can apply in my future career.

In addition to my academic ambitions, I have always been actively involved in community life and various projects. My participation in volunteer work, social initiatives, and professional projects has helped me develop leadership qualities, teamwork skills, and communication abilities. My first experience in such activities was the Winter School in Kyiv, EU Study Days, a project of the Delegation of the European Union to Ukraine, which aims to enhance young Ukrainians' knowledge about the EU, EU-Ukraine relations, and provide essential information in relevant areas from key European and Ukrainian experts. The project fosters the development of a network for Ukrainian youth to communicate, exchange experiences, collaborate, and implement joint initiatives.

I also recently participated in the international youth exchange "THE FIRST WEALTH IS HEALTH," which took place from September 21 to 29, 2024, in the Polish village of Placewo near Wejherowo. Various workshops, training sessions, and complete immersion in the Erasmus+ atmosphere further solidified my sincere desire to continue participating in such projects.

Therefore, I am confident that this experience will help me not only quickly adapt to new conditions but also contribute to the student community. I truly believe that participating in this program will be a decisive step in my personal and professional development, which I will be able to share with Ukrainian students back in Ukraine. I am grateful for your consideration of my application and hope for the opportunity to join this exceptional academic community.
