Volodymyr Vynnychenko Central  
Ukrainian State University  
Rector Prof. Yevhen Sobol  
mails@cuspu.edu.ua

Dear Professor Sobol!

We are pleased to announce that the TANDEM-UA-DE project has officially launched.

Following the recent selection process, we have successfully identified the lecturers from Ukrainian partner universities for the first 6 courses of the semester. From Volodymyr Vynnychenko Central Ukrainian State University, the following lecturer has been selected:

- PhD. Mykola Verezubenko (German language courses)

We warmly congratulate him on his selection and look forward to his valuable contributions to the project.

In parallel, we have opened the student selection process for these courses. We are delighted to share that we have already received over 250 applications, which clearly demonstrates the high level of interest and enthusiasm for the TANDEM-UA-DE programme among students from all six Ukrainian partner universities.

The courses are scheduled to start on October 1st, 2025, and we are confident that this semester will set a strong foundation for successful implementation of the programme and for the continued development of German-Ukrainian academic cooperation.

We sincerely thank your university for its continued support and collaboration.

Yours sincerely,

Prof. Dr. Julia Heigl,  
Vice-dean of Department of Industrial Engineering and Healthcare  
TANDEM-UA-DE project coordinator
